

MANAGED CLOUD EMAIL SECURITY (MCES)

WHY CHOSE NETWORK BOX USA MANAGED CLOUD EMAIL SECURITY (MCES)

NWB MCES is a fully managed email security service.

Sit back, relax and enjoy predictable revenue while our team protects your clients from evolving threats.

MCES's multiple mail scanning engines verify every email on your platform and block all malicious emails containing bad links, malware, spam, and scams from being received by a user.

MCES leverages intel from 25 anti-spam engines, 18 anti-malware engines, and is backed by a database of over 55.6 million signatures. MCES's patented push technology ensures businesses are protected with the latest security updates, in just under 45 seconds from availability, and its email scanning engine catches spam with a success rate of 99.78% making it the best choice for email security.

MCES IS POWERED BY NETWORK BOX USA:

MANAGED CLOUD EMAIL SECURITY (MCES)

MCES scanning engine catches spam with a success rate of 99.78%

MCES BENEFITS

- ✓ **Patented Push Technology**
Close the gap: Network Box reduces the time between threat discovery, and protection, to mere seconds or less.
- ✓ **Fully Managed**
We manage your email security so you do not have to.
- ✓ **Multiple Scanning Engines**
Robust redundancy in every layer of our email security to ensure maximum threat detection and protection:
25 anti-spam engines, 18 anti-malware engines, backed by a database of over 120 million signatures.
- ✓ **Low-Cost and TCO**
Licensing as low as \$0.70 per email address per month.
No additional FTE costs.

POWERED BY NETWORK BOX USA.
THAT'S CYBERSECURITY DONE RIGHT.
