UNIFIED THREAT MANAGEMENT (UTM)

Network Box USA's Unified Threat Management solution is a key component of Edge Defense:

Our UTM is a fully fledged Cloud-based or on-premisis UTM, purpose built for today's distributed businesses and remote workforce.

WHY CHOOSE NETWORK BOX USA
UNIFIED THREAT MANAGEMENT (UTM)

Network Box USA's Unified Threat Management (UTM) solution, a key component of Edge Defense, is a comprehensive next-generation managed firewall bundle, purpose built for today's distributed businesses and remote workforce. It includes FW+ (*Firewall, IPS, VPN*), web browsing protection modules (*anti-malware for files and URLs*), HTTP and HTTPS, content filtering, policy enforcement, application filtering and more, ensuring businesses are fully protected from advanced threats.

UTM IS POWERED BY NETWORK BOX USA:

BEST-IN-CLASS THREAT INTELLIGENCE

ZERO-DAY THREAT PROTECTION

SELF-OPERATED SECURITY RESPONSE CENTER

3 ISO Certifications
PCI DSS 3.2 attestation
70+ threat intelligence partners

FULLY STAFFED SECURITY OPERATIONS CENTER

UNIFIED MANAGEMENT GUI

UNIFIED THREAT MANAGEMENT (UTM)

A COMPLEX CYBERSECURITY ENVIRONMENT REQUIRES A ROBUST CYBERSECURITY SOLUTION

UTM BENEFITS

✅ **UTM in the Cloud or On-Prem**
Blends the perimeter protection and multi-layer security traditionally found in UTMs with the advanced, virtualized web filtering and threat prevention capabilities of modern cloud-based gateways.

✅ **Lightweight Single-Pass Architecture**
Requests are processed through URL filtering, malware scanning, DLP, and SSL/TLS decryption in one unified flow. This single pass minimizes latency and resource overhead.

✅ **Fully Managed**
We manage, monitor, and update your UTM so you do not have to.

✅ **Low-Cost and TCO**
Low per user per month licensing and no additional FTE costs.

One license includes everything shown in the data sheet below:

NETWORK BOX USA UTM DATASHEET

UNIFIED THREAT MANAGEMENT (UTM) SERVICE INCLUDES:
