

THE NBUSA ADVANTAGE

WHAT MAKES NBUSA A “DO-IT-ALL” CYBERSECURITY PROVIDER:

Network Box USA provides an all-encompassing managed cybersecurity platform, combining both networking and security solutions under one roof.

This seamless integration simplifies vendor management and reduces complexity while delivering enterprise-grade protection—even to small and mid-sized businesses.

KEY PILLARS OF OUR UNIFIED OFFERING:

1. Edge Defense & SASE Suite:

Complete SASE-aligned stack including SD-WAN, Secure Web Gateway (SWG+), Web Application Firewall (WAF+), and Unified Threat Management (UTM+), all centrally managed and tailored for modern distributed environments.

2. Managed Detection & Response (MDR):

SIEM+ & XDR for unified event analysis, Endpoint Detection & Response (EDR), and a 24×7×365 staffed Security Operations Center (SOC).

3. Proprietary Security Infrastructure:

Security Response Center (SRC) with global threat intelligence from 70+ partners and 250K+ honeypots, high-speed PUSH updates, Z-Scan, and real-time cloud databases.

4. Extended Protection Services:

Managed Cloud Email Security, Penetration Testing, Cybersecurity Awareness Training, and Reputation Monitoring.
