## FEB 2020

## Network Box Technical News

from **Mark Webb-Johnson**

Chief Technology Officer, Network Box

Welcome to the  
February 2020 edition of  
In the **Boxing Ring**

This month, we will be talking about **Cloud Notifications**. On Monday 10th February 2020, we will be migrating all users to a new ticket reporting format that is responsive for mobile devices, information-rich, and supports the most up-to-date design methodologies. In preparation for this, on pages 2 to 3, we will be discussing this greater detail and highlighting the key enhancements of the new update.

In other news, Network Box Germany held a cybersecurity seminar for *Bösen & Heinke GmbH & Co. KG (B&H)*. Furthermore, as a special end-of-year review, all the key *In the Boxing Ring* articles of the past year have been compiled in the **2019 Network Box Technology Review**. And finally, in this month's Media Coverage, Network Box was featured in the **Harbour Times, IT Finanzmagazin, and it-daily.net**.

**Mark Webb-Johnson**

CTO, Network Box Corporation Ltd.  
February 2020

### Stay Connected

You can contact us here at Network Box HQ by email: **[nbhq@network-box.com](mailto:nbhq@network-box.com)**, or drop by our office next time you are in town. You can also keep in touch with us by several social networks:

<https://twitter.com/networkbox>

<https://www.facebook.com/networkbox>  
<https://www.facebook.com/networkboxresponse>

##### Network Box Highlights:

- Network Box Germany Cybersecurity Seminar - Bösen & Heinke GmbH & Co. KG
- Network Box Media Coverage:
  - Harbour Times
  - IT Finanzmagazin
  - it-daily.net
- Network Box Tech Review 2019

**NOTE: With effect from January 2020 we have switched to a quarterly Patch Tuesday cycle for Network Box 5. However, essential security fixes will continue to be released out-of-cycle, if necessary.**

# CLOUD NOTIFICATIONS

This month, on Monday 10th February 2020, Network Box will be migrating all users to a new ticket reporting format that is responsive for mobile devices, information-rich, and supports the most up-to-date design methodologies.

The Box Office (and NBSIEM+) cloud systems contain a powerful notification mechanism to keep you informed of changes to your devices and support tickets. This is fully customisable and configurable - with each notification contact point having its own schedule and options.

## Configuration

In Box Office, you can configure your own notifications by choosing the My Account module. There, you can see the Contact Types configured for you. The following contact methods are supported:

- Audit (just show in the audit trail)
- Email
- SMS (premium service options, paid per SMS message)
- Mail-to-SMS (using mail-to-SMS gateways, if your cellular provider offers)
- iOS APNS push notifications (from registered Apple mobile phone Apps)
- Android GCM push notifications (from registered Android mobile phone Apps)

▲ Box Office: My Account module - Contact Types  
Please note: the screen-shots provided is to illustrate the feature, the final screen may vary

You can optionally restrict the times at which a given notification contact point will be active, and use box groups (saved in the BOXES facility) to further restrict the notifications you receive. These can, for example, be used to suppress notifications outside work hours, except for a defined list of high priority boxes.

Once you've defined the notification contact types, you can also use the Notification Config section to configure what sort of notification (for example, ticket creation, ticket update, GMS health issue, SIEM incident, etc) each contact point should receive.

The user guide for this is available here:

<http://download.network-box.com/guides/NetworkBoxOfficeCustomerPortalUserGuide.pdf>

## Email Notifications

The updated email notifications will have several new features, this will include the following:

- Responsive design (supports narrow screens such as phones, as well as large wide-screens on desktop/laptops).
- Title text to summarise the purpose of the notification.
- An information-rich design; showing you the information you need, at a glance.
- Support for the latest web standards, including dark/light mode displays.
- Modern design methodology - the same modern design as NBSIEM+.
- Linked to box office, so clicking on the ticket number will take you the Box Office ticket.

## INCIDENT RAISED

acme784256  
Ticket #82043692

**Malware detected in Web Client activity**

Malware was detected in a web request raised by local IP 10.0.2.258 / User Joe.user when visiting www.abc.com at 203.01.02.652.

Threats: avp.HEUR:Trojan-PSM.Script.Phish.gen  
Method: get  
URL: https://www.www.abc.com /dev/wp-content/blogs.dir/cache/cdr-read/xrp/user-355815/sxjyk559devfg3woy2aphwrcra.php  
Response: HTTP/1.1 403 Text/html

**Ticket #82043692**

Status:	NEW	Opened:	2020-02-03 00:00:02 GMT
Priority:	4 - Request	Updated:	2020-02-03 00:00:02 GMT
Job Category:	GMS SIEM Incident	Closed:	-
Raised By:	Network Box HQ NOC		
NOC Handling:			

Device Information	Customer Information
Box ID: acme784256 Box Type: ITP N-2951 SLA: HQ NOC Standard SLA Location: Texas, USA	Company: ACME Ltd Admin Contact: Admin.User admin.user@acme.com +1 258 258 258 258
Host Status: OK Reachable to/from 24 test point(s)	Tech Contact: Tech.User tech.user@acme.com +1 852 852 852 852
Service Status: OK Services are OK	

On launch day, we will migrate all current Box Office Email contact types to use this new responsive design template by default (named 'Standard 2019'). The old template will remain as 'Standard 2019', should you wish to continue to use that.

# Network Box HIGHLIGHTS

## Network Box Germany Cybersecurity Seminar - Bösen & Heinke GmbH & Co. KG

Network Box Germany conducted a cybersecurity seminar for partner, *Bösen & Heinke GmbH & Co. KG* (B&H) at their headquarters in Langenfeld, Germany. The seminar workshop highlighted the current security threat landscape, focusing on phishing emails/campaigns and best practices for protection.
